

**Splice Construction Ltd is committed to protecting the public and workers by ensuring all work carried out and where required is in accordance with CoPTTM by:**

1. Ensuring relevant staff are trained and competent in the Code of Practice for Temporary Traffic Management
2. Training requirements are reviewed utilising the training register
3. In the event that training is required this will be outsourced to a compliant TTM trainer for Level 2/3 STMS qualification. For Level 1 STMS training this may be conducted in house by a qualified trainer
4. Once all staff are trained, refresher courses will be undertaken as required to ensure their STMS qualification does not expire.
